Iran

Russia (Kurgan and Nizhny Novgorod regions)

Total exhibition space (gross):

**3 825** sq.m.

Number of participating companies:  
**164**

Number of professional visitors:

**3 052**

Number of visits:

**4 120**

Would you recommend participation in the exhibition to your colleagues and partners?

**98%**

OF THE PARTICIPANTS CONSIDER THEIR PARTICIPATION IN THE EXHIBITION IMPORTANT FOR THEIR BUSINESS DEVELOPMENT

- 75% - Yes
- 23% - Don't know
- 2% - No

Currently, Uzbekistan is among the top ten in the world in terms of reserves and resources of the most important minerals, such as gold (the 5th position), uranium (the 12th position), copper (the 8th position), potassium salts, phosphorites and kaolin (the 4th position). In addition, the country occupies a leading position in the world in gold (the 10th position) and uranium (the 7th position) production. There are two leading state-owned mining companies in the country: Almayk Mining and Metallurgical Plant (AMMP) and Navoi Mining and Metallurgical Plant (NMMP).
